

Intensive Science Plan (CORE Area B)

INSTRUCTIONS:

1. Only for undergraduate students who have been formally admitted to and enrolled at SJSU for at least one semester. If you have successfully completed in-depth coursework in science that is not certified for GE, you may request an alternative package to satisfy your Core Physical Science (B1), Life Science (B2), and Math Concepts (B4), including a lab in B1 or B2. If you have completed introductory science courses for majors while you were in a major that required the courses, those courses may be used to satisfy Physical and/or Life Science, depending on the subject matter of the course. A complete package of courses must be proposed and completed or in progress when this petition is submitted.
2. Generally, a grade of "C" or better is required in all of the courses listed on the petition.
3. Completely fill out this form. Requests will NOT be accepted if any attachments or signatures are missing. Attach a statement explaining your request and why you are making it.
4. List all science and math courses successfully completed.
5. Attach ALL required documentation.
6. Turn your petition into the College of Science, along with a self-addressed, stamped envelope.
7. The College of Science will return the petition to the Undergraduate Studies Office, which will mail a copy, without attachments, to the student.
